Safety certificate for proof of registration

Recording of particulars and confirmation of restricted seaworthiness

l.	Coastal boat details
1.	Name and call sign/ MMSI:
2.	Builder(s):
3.	Year built (= Year of delivery to first owner):
4.	If available - Build- and/or Serial No. of the boat/hull:
5.	If available - Type approval category and/or No. of the boat/hull:
6.	Hull (main) material:
7.	Type / designation of craft (e.g. jet ski):
8.	Length of hull, width and draught (in metres):
9.	Total weight / Displacement (in metric tons or kilograms):
	Craft over 24 m length according to ITC 69 ¹ : Gross tonnage and length
10.	List of all safety, signalling and communication equipment with corresponding build-/type-/test- and/or serial-no.:
	Max. number of persons allowed aboard according to the craft's specifications and equipment:
12.	Area of operation according to the craft's specifications and equipment (e.g. coastal waters up to 20 nm):
13.	For craft powered by engine(s):
	builder and total power rating (in kW; in case of multiple engines also their specific individual power rating 150 kW):
If availal	ble: corresponding engine(s) build-/type-/test- and/or serial-no. :
Petro	I □ Diesel □ Electric □ Other

02/2025

 $^{^{1}}$ Values according to the international convention on tonnage measurement of ships 1969 (SR 0.747.305.412) The international tonnage measurement certificate must be attached to this form.

14.	For craft powered by sail(s): Rigging (e.g. sloop) and nominal sailing area close-hauled:
15.	For craft alternatively powered (e.g. rowing boats, pedalos): Details of propulsion system(s):
II.	Approval and confirmation of limited seaworthiness
Gene	ral information on the survey of the mentioned coastal boat

Addre	ess of the owner:
Conta	act details of the owner (tel. / email):
Note:	The structural seaworthiness for the specified area of operation must be ensured permanently hereafter. All corresponding

equipment must be carried aboard when underway and maintained accordingly. If the coastal boat becomes permanently unseaworthy, owner(s) must request its deletion from the registry of Swiss seagoing crafts.

For all craft of 150 GT or above, the survey must be performed by a classification society recognised by the SMNO in order to confirm meeting the requirements of the applicable international regulations. In special cases, the SMNO may also require a survey statement by a recognised classification society for yachts under 150 GT.
