HSC Codes (HSC Code 1994 and HSC Code 2000)

No High Speed Craft (HSC) are registered in Switzerland. As a landlocked Country operating a national register only it is unlikely that HSC operating in international trade will be registered under Swiss flag. Should the unlikely case occur, HSC will be dealt with on a case-by-case basis.

INF Code

The transport of INF Cargo as defined in SOLAS VII/14.2 is prohibited on board of Swiss flagged ships.

IMDG Code

In section 6.3.2 a reference is made referring to “satisfies the competent authority”. In this case the competent authority is the authority of the port state. For a landlocked country this requirement is not applicable and requirements for road and rail transport apply for the transport on dangerous goods. The IMDG code has no further occurrences left to the satisfaction of the administration.
